Signature: \_\_\_\_\_

Date: 20 Aug 2021

Notes to the marking of the ANL488 proposal:

Markers whose mean is above or below the overall mean should aim to bring it more in line with the overall mean of 65.

For those students whose proposal is very general and vague and do not have complete chapters from the list below deserve a failing grade (below 40):

- (1) Introduction
- (2) Literature Review
- (3) Data Understanding and
- (4) Proposed Modelling and Evaluation.

Please bring to the Head of Programme's attention if you are unsure.

When downloading the proposal for marking from the respective ANL488 T group in Canvas via Assignments -> PROPOSAL01, check those whose Similarity score is above 30%(see Figure 2 below) to see if there is plagiarism(look for 2 whole paragraphs that are copied wholesale without amendment). Please gather the evidence and put it in a word document and send it to the Head of Programme and Mechelle for their necessary action.
