## Class List - Confidential

Important: The contact details listed below is classified as CONFIDENTIAL information. The associate / faculty teaching the assigned course MUST only use the contact details exclusively for teaching related purpose.

In compliance with the Personal Data Protection Act 2012, this list MUST not be disclosed / circulated to any third party via all types of communication without prior written consent of the students. You are to follow the stipulated guidelines mentioned below:

1. There should be no creation of any Google Link Doc (or any other documents which can be publicly accessed) which requires students to input their personal information such as personal email and contact number while forming their GBA group for example. Please do not conduct any online survey which requires student personal details and does not form part of the teaching activities. Collection of any personal data for purposes other than teaching-related activities will equire written consent from students.

2. Please refrain from creating any chat group via social media platform (eg. Whatsapp etc.) where student mobile numbers are publicly shared to everyone in the class group. You are advised to engage with your students through official channels such as SUSS email and Canvas. If you have to create any chatgroup, written consent has to be obtained from your students.

3. It is your responsibility to communicate any important information to students who have missed their face-to-face session. You are not allowed to disclose any student mobile number to the assignment group leader without first obtaining the written consent of your students.

**Course : ANL252 - Python for Data Analytics (T05)**
